

# Vetmestersspel

Iedereen krijgt een startkapitaal van 20 euro.

Daarmee kunnen de spelers varkens of koeien kopen bij de boederij.

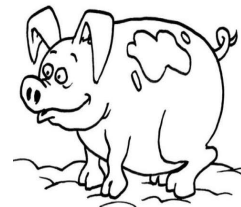

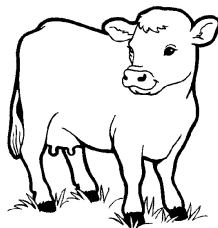

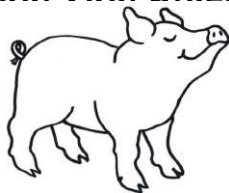

Ze kunnen hun dieren eerlijk vetmesten en dan verkopen aan de slachter. Ze kunnen ook gaan werken met hormonen om zo hun dieren groter te laten groeien en er meer geld voor te krijgen.

Dit kan als de maffia opgezocht wordt. (voor 20 euro wordt het kaartje geruild). Dat dier ingeleverd bij de slachter is meer geld waard omdat het dier zwaarder weegt.

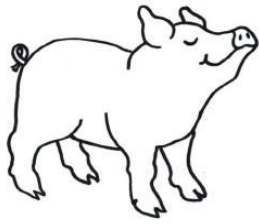

Maar hier is een risico aan verbonden... De hormoonbrigade loopt rond en vernietigd de illegaal ingespoten dieren.

Er heerst natuurlijk ook gekke koeienziekte en varkenspest. Iemand die gepakt wordt door een van de rondrennenden ziektekiemen ziet al zijn dieren sterven.

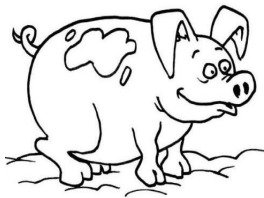

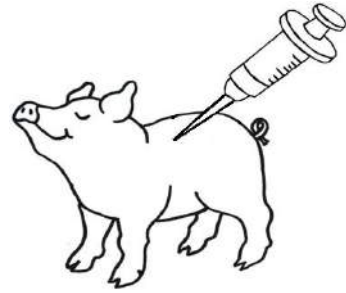

Heel veel plezier!
